1. PRODUCT IDENTIFICATION

Product Name: Ramik® Green

Product Number(s): Rodenticide

Manufacturer: HACCO, Inc.
110 Hopkins Drive
Randolph, WI 53956

Manufacturer Phone: 1-920-326-5141

Distributor: Neogen Corporation – Animal Safety
944 Nandino Boulevard
Lexington, KY 40511

Distributor Phone: 1-800-477-8201

Emergency Phone: Medical: 1-651-523-0318
Spill: 1-703-527-3887

2. HAZARDS IDENTIFICATION

Classifications: Specific Target Organ Toxicity: Respiratory Irritation, Category 3
Carcinogenicity: Category 1A
Specific Target Organ Toxicity: Repeated Category I
Dermal: Category 3

Signal Word (EPA): CAUTION

Signal Word (OSHA): DANGER

Hazard Statements: Toxic in contact with skin.
May cause respiratory irritation.
May cause cancer.
Causes damage to organs through prolonged or repeated exposure

Other Hazard Statements: This product presents no significant hazards under normal conditions of use.
May form combustible dust concentrations in air.

Ingredients not precisely identified are proprietary or non-hazardous. Values are not product specifications.

4. FIRST AID MEASURES

Have the product container, label, or Material Safety Data Sheet with you when calling 800-498-5743, a poison control center or doctor, or going for treatment.

Ingestion: If swallowed: Call 1-651-523-0318, a poison control center or doctor immediately for treatment advice. Have the person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so after calling 1-651-523-0318 or by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

Eye Contact: If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after 5 minutes, then continue rinsing eye. Call 1-651-523-0318, a poison control center or doctor for treatment advice.

Skin Contact: If on skin or clothing: Take off contaminated clothing. Wash skin with soap and water.

Inhalation: Not applicable.

Most Important Symptoms/Effects:

Anticoagulant effects.

Indication of immediate medical attention and special treatment needed:

This product contains anticoagulants with an effect similar to warfarin in that they act by interfering with the synthesis of prothrombin. The specific measure is the prothrombin time. Note this may not become prolonged until 12-18 hours after ingestion. The specific antidote is Vitamin K1 (Phytomenadione BP).

Antidote must be administered under medical supervision. Initially, antidote should be given by injection (10-20 mg, or 0.25 mg/kg for children, by slow intravenous infusion at a rate of 1 mg/minute. In severe cases the use of fresh frozen plasma may be required). Maintenance treatment is given orally (40 mg/day in divided doses for adults; up to 20 mg/day in divided doses for children). The prothrombin time and the hemoglobin should be monitored. Patients should be kept under medical supervision until the prothrombin time has been normal for 3 consecutive days. Oral treatment may need to be continued for several weeks. (20 mg/day in divided doses for adults, and up to 20 mg/day in divided doses for children). (For animal cases the dose is 2-5 mg/kg).

Further information is available from the Prosar Emergency Number (1-651-523-0318) provided in this document.

5. FIRE FIGHTING MEASURES

Suitable (and unsuitable) extinguishing media:

Use dry chemical, foam or CO₂ extinguishing media. If water is to be used to fight fire, dike and collect run-off.

Specific Hazards:

During a fire, irritating and possible toxic gases may be generated by thermal decomposition of combustion.

Special protective equipment and precautions for firefighters:

Wear full protective clothing and self-contained breathing apparatus. Evacuate nonessential personnel from the area to prevent human exposure to fire, smoke, fumes or product of combustion.
6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures:

Follow exposure controls/personal protection outlined in Section 8.

Methods and materials for containment and cleaning up:

Control the spill at its source. Clean up spills immediately, observing precautions outlined in Section 8. Sweep up material and place in a compatible disposal container. Once all material is collected, seal container and arrange for disposition.

7. HANDLING AND STORAGE

Precautions for safe handling:

Store the material in a well-ventilated, secure area out of reach of children and domestic animals. Do not store food, beverages or tobacco products in the storage area. Prevent eating, drinking, tobacco use and cosmetic application in areas where there is a potential for exposure to the material. Wash thoroughly with soap and water after handling.

Conditions for safe storage, including any incompatibilities:

Store locked up.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

THE FOLLOWING RECOMMENDATIONS FOR EXPOSURE CONTROLS/PERSONAL PROTECTION ARE INTENDED FOR THE MANUFACTURE, FORMULATION, PACKAGING, AND USE OF THIS PRODUCT.

FOR COMMERCIAL APPLICATIONS AND/OR ON-FARM APPLICATIONS CONSULT THE PRODUCT LABEL.

### Occupational Exposure Limit

**Ingestion:** Prevent eating, drinking, tobacco usage and cosmetic application in areas where there is a potential for exposure to the material. Wash thoroughly with soap and water after handling.

**Eye Contact:** Eye protection is not required for normal handling. Where eye contact is likely, wear tight-fitting chemical goggles.

**Skin Contact:** Gloves are not required for normal handling. Where heavy contact is likely, wear chemical resistant (such as nitrile or butyl) gloves.

**Inhalation:** Respiratory protection is not required for normal handling. In the event of an unusual dust exposure, use engineering controls or a NIOSH-approved particulate respirator (N, P, R, or HE filter) to keep exposure below the Occupational Exposure Limit.

11. TOXICOLOGICAL INFORMATION

Health Effects Information

- Likely routes of exposure: Dermal, inhalation
- Symptoms of exposure: Anticoagulant effects
- Delayed, immediate and chronic effects of exposure: Anticoagulant effects

Numerical Measures of Toxicity (Acute Toxicity/Irritation Studies – Finished Product)

- Ingestion: Oral LD₅₀ (Rat): >7 mg/kg body weight
- Dermal: Dermal LD₅₀ (Rabbit): >10 mg/kg body weight
- Inhalation: Inhalation LC₅₀ (Rat): <1 mg/kg body weight
- Eye Contact: See “Other Toxicity Information, Section 11”
- Skin Contact: See “Other Toxicity Information, Section 11”
- Skin Sensitization: Not Available

Reproductive/Developmental Effects

Not Available
Chronic/Subchronic Toxicity Studies
Diphacinone Technical: Not Available.

Carcinogenicity
Diphacinone Technical: Unlikely to be carcinogenic.

Other Toxicity Information
Systemically toxic concentrations of this product will probably not be absorbed through human skin. No toxic effects are known to be associated with inhalation of dust from this material. No irritation is likely to develop following contact with human eyes. Irritation will probably not develop following contact with human skin.

Toxicity of Other Components
Not Applicable

Target Organs

Active Ingredients
Diphacinone Technical: Blood

Inactive Ingredients
Not Applicable

12. ECOLOGICAL INFORMATION
Do not discharge effluent containing this product directly to water. Do not contaminate water when disposing of equipment wash water.

13. DISPOSAL CONSIDERATIONS
Disposal: Do not reuse empty container except for holding additional product.
Characteristic Waste: Not Applicable
Listed Waste: Not Applicable

14. TRANSPORT INFORMATION

15. REGULATORY INFORMATION

Pesticide Registration

This chemical is a pesticide product registered by the Environmental Protection Agency and is subject to certain labeling requirements under federal pesticide law. These requirements differ from the classification criteria and hazard information required for safety data sheets and for workplace labels of non-pesticide chemicals. Following is the hazard information as required on the pesticide label.

Caution: Harmful if swallowed or absorbed through skin. Keep away from children, domestic animals and pets. Do not get in eyes, on skin or on clothing. All handlers (including applicators) must wear shoes plus socks, and gloves. Any person who retrieves carcasses or unused bait following application of this product must wear waterproof gloves.

Registration Number : Pending

EPA SARA Title III Classification
- Section 311/312 Hazard Classes: Acute Health Hazard
- Section 313 Toxic Chemicals: Not Applicable
- California Proposition 65 : Not Applicable
- CERLA/SARA 302 Reportable Quantity (RQ) : None
- RCRA Hazardous Waste Classification (40 CFR 261): Not Applicable
- TSCA Status: Exempt from TSCA, subject to FIFRA
