

PanaKare™ Plus Tablets

Pancreatic Enzyme Concentrate Plus Fat Soluble Vitamins

Indications

For use as a digestive aid in replacement therapy where digestion of protein, carbohydrate and fat is inadequate due to exocrine pancreatic insufficiency.

Description

PanaKare Plus is a pancreatic enzyme concentrate of porcine origin fortified with vitamins A, D₃, and E.

Vitamin Therapy

Serum concentrations of fat-soluble vitamins A, D₃ and E are often sub-normal in dogs and cats with pancreatic insufficiency, and sometimes do not increase in response to enzyme treatment alone. While ideal dosage levels have not been officially established, oral supplementation with fat-soluble vitamins is widely accepted and recommended.

Item No.	Description
09067	PanaKare Plus Tablets 100 ct Bottle– 12/Case R _x
09068	PanaKare Plus Tablets 500 ct Bottle– 12/Case R _x
