Packaging

Packaging	Product Code
Siloxycide 2.5 gal pail	480021/2.5
Siloxycide 30 gal	480021/30
Siloxycide 55 gal	480021/55

Usage Rates

Task	U.S.	Metric
<i>General use</i>	1 oz/9 oz of water	29.5 mL/0.26 L
<i>Water line disinfection</i>	1:33 or 3% *RTU formulation available*	

Active Ingredients

Hydrogen peroxide.....	50.0%
Silver.....	0.10%
Other Ingredients.....	49.90%
Total.....	100.00%

Benefits

- EPA approved water line disinfectant
- Silver nitrate provides extended peroxide stability
- Offers silver's microbial properties

Physical Properties

State:	Liquid
Color:	Clear
Odor:	Slight
pH:	1.0-4.0
Danger of Explosion:	Combustible product in contact with flammable materials, heat at/above 60°C
Soluble in water:	Soluble
